# Strider Technologies: ISO 27001 & 27701 Internal Audit in 30 Days

How Nexeris completed dual ISO internal audits on an aggressive timeline to ensure certification readiness.

## CLIENT

Strider Technologies, Inc.

## ENGAGEMENT TYPE

ISO 27001 and 27701 Internal Audit

## INDUSTRY

Defense, Technology, Intelligence

## OVERVIEW & THE CHALLENGE

Dual ISO internal audits delivered under an aggressive certification timeline.

### CLIENT PROFILE

#### CLIENT

Strider Technologies, Inc.

#### INDUSTRY

Defense, Technology, Intelligence

#### COMPLIANCE LEVEL

ISO 27001 and ISO 27701

### KEY ACHIEVEMENT

 **30 Days**

To Internal Audit Completion

*Kicked off engagement within 7 days and completed dual ISO internal audits in 30 calendar days.*

## THE CHALLENGE

Strider Technologies had certification audits already scheduled and needed a thorough ISO 27001 and ISO 27701 internal audit completed as quickly as possible. With no time to spare, they required a partner who could mobilize immediately, execute with precision, and deliver results without sacrificing quality.

### WHAT WAS AT RISK

-  Certification timeline at risk due to aggressive audit schedule.
-  High internal workload with limited time to prepare evidence and remediate gaps.
-  Risk of non-conformities derailing first-time ISO 27001 and 27701 certifications.

## THE SOLUTION

Nexeris mobilized immediately to deliver a rigorous, end-to-end internal audit across two ISO frameworks simultaneously, all within a 30-day window.

### RAPID MOBILIZATION

Kicked off the engagement within 24 hours of contract execution, immediately delivering audit plans and evidence requests to the Strider team.

### CONCURRENT AUDIT EXECUTION

Began audit procedures as evidence arrived, running ISO 27001 and ISO 27701 reviews simultaneously to meet the compressed timeline.

### NON-CONFORMITY IDENTIFICATION

Identified every non-conformity across both frameworks and documented each finding with clear, actionable detail.

### CORRECTIVE ACTION PLANNING

Provided a tailored corrective action plan for each non-conformity, giving Strider a clear roadmap to certification readiness.

## THE RESULTS

**30**  
DAYS

Time to Audit  
Completion

### ISO 27001 & 27701 INTERNAL AUDITS COMPLETE

Strider rapidly executed the recommended corrective action plans and successfully obtained both ISO 27001 and ISO 27701 certifications in the weeks following the internal audit.

- ✓ Engagement kicked off within 7 days of introduction
- ✓ Both ISO internal audits completed in 30 calendar days
- ✓ Every non-conformity identified and documented
- ✓ First-time ISO 27001 & 27701 certifications achieved

“

Nexeris played a key role in helping us prepare for ISO 27001 and ISO 27701 certification under an aggressive timeline. Their team was highly communicative, easy to work with, and proactive in coordinating with our external audit firm. Most importantly, they were willing to meet tight deadlines without sacrificing quality.”

Chad Davis

Director of GRC,  
Strider Technologies

## KEY TAKEAWAYS

### SPEED DOES NOT REQUIRE SACRIFICE

Two ISO internal audits can be completed within a 30-day window without compromising thoroughness. Nexeris' ability to mobilize rapidly and work concurrently across frameworks enables clients to meet even the most aggressive certification timelines.

### INDEPENDENT ASSESSMENT DRIVES CERTIFICATION SUCCESS

An independent internal audit conducted by experienced professionals ensures that every non-conformity is surfaced and addressed before certification auditors arrive, significantly increasing the likelihood of first-time certification success.
